THE TRUTH ABOUT THE PHILIPPINES

JUST PUBLISHED

The Hon. DEAN C. WORCESTER'S New Book

THE PHILIPPINES Past and Present

By DEAN C. WORCESTER

Secretary of the Interior, Philippine Insular Government, 1901-1913

Author of "The Philippine Islands and Their People"

This new book may be justly described as the only really valuable up-to-date and authoritative work on the Philippine Islands.

It is a work that everyone interested in our insular possessions and in the future of our Nation should read, especially as the new administration just appointed has once more brought up sharply the whole question of our policy with regard to the Philippines.

To bring home to the American people the truth as to the situation in the Philippines is the primary object of the Hon. Dean C. Worcester's new book on our Southern Pacific Archipelago, and this work will afford more information on the subject than any other.

There is no greater authority on these insular possessions than Mr. Worcester who, as early as 1897, and again in 1900, with a prominent member of scientific expeditions to the Islands, from 1899 to 1901 was a member of the U. S. Philippine Commission; since 1901 has been Secretary of the Interior to the Insular Government, and who in 1899 published "The Philippine Islands and Their People," a record of personal observation and experience, with a short summary of the more important facts in the history of the archipelago, which has ever since been the acknowledged standard work of information concerning the Islands.

In Mr. Worcester's valuable new work past and present conditions are minutely reviewed with regard for strict accuracy of statement. The author's position giving him free access to all the government records, much of the information thus made available has never before been made public. With practically unlimited material on which to draw in the way of illustrations, very fine and rare photographs intimately related with the text emphasize the lessons which they are respectively intended to teach.

The result is a work of the greatest importance as well as of the greatest interest to all concerned as to the future possibilities of the Philippines and as to the course the United States Government should pursue in the interests of the several peoples of the Islands.

STOLEN WATERS. A Page in the Conquest of Ulster.

By T. M. HEALY, M.P., One of His Majesty's Counsel, Benchers of Gray's Inn, London, and of King's Inns, Dublin. With Map. 8vo. Pp. x+402. 2s. 3s. net. Postage 18 cents.

Mr. Healy has thrown some new light on an obscure and devious by-path of Irish history. The book illuminates the manner in which the English aristocracy has governed Ireland.

Mr. Healy is fighting against a great injustice and the reader will get many new lights on the Tudor and Stuart period of Irish history.

In a volume of some 500 pages, entitled "Stolen Waters," Mr. Healy tells the story of the prolonged legal struggle by the fishermen of Lough Neagh in Ulster for the definition and assertion of their rights to free fishing in the far-famed lake. The volume is important from a historical and legal standpoint and the author had the advantage of having acted as one of the counsel for the fishermen in the case when it was last contested in the courts.

A History of England from the Defeat of the Armada to the Death of Elizabeth.

With an Account of English Institutions during the Later Sixteenth and Seventeenth Centuries.

By EDWARD P. CARYNEY, A.M., LL.D., Professor of European History in the University of Pennsylvania. Two Vols. 8vo. Vol. I. Pp. x+560.

(January, 1914)

A GENERAL HISTORY OF THE WORLD

By OSCAR BROWNING, M.A., Senior Fellow of King's College, Cambridge, and late University Lecturer in History. With 8 Maps and 9 Genealogical Tables. Crown 8vo. Pp. xx+800. \$1.50 net. Postage 18 cents.

How did the modern civilized world which we know to-day come into being? The answer to that question is contained in this volume, set forth with a sense of proportion and perspective which the author has acquired by an unusually long experience as student and teacher in every branch of historical learning.

American Citizen Series

Edited by ALGER BUSHNELL HART, LL.D.

ORGANIZED DEMOCRACY. An Introduction to the Study of American Politics.

By FREDERICK A. CLEVELAND, Ph.D., LL.D. With Bibliographies and Index. Crown 8vo. Pp. xxvi+479. \$2.50 net. By mail \$2.65.

"A valuable work. It sums up the development of the rights of citizenship, the analysis of the incumbrance of the power of the State throughout the ages, the statement of the qualifications for voting, and endeavors to describe the accumulation of regulations by which the citizen must be guided. The author also describes the various experiments that have been made to alter existing conditions."—*New York Sun*.

"A masterly book... comprehensive... never wearisome and always informative."—*San Francisco Chronicle*.
